PROFESSIONAL SUMMARY

Self-taught Front-End Developer with 2+ years of experience building responsive, SEO-optimized web apps using React, Next.js, and TypeScript. Currently freelancing for Made4Cloud, delivering client projects. Seeking a full-time role to grow by learning from senior developers while contributing my skills. Skilled in interactive web apps, secure authentication, API integration, and creating clean, performance-driven UI.

SKILLS

- **Frontend:** React, Next.js, Vue.js, TypeScript, JavaScript, Tailwind CSS, HTML5, CSS3, Framer Motion, Pinia
- **Backend & Database:** Node.js, Express.js, MongoDB
- **Tools & Platforms:** Redux Toolkit, Chart.js, Cloudinary, Git, GitHub, Vercel, SEO Optimization
- **Soft Skills:** Problem Solving, Attention to Detail, Time Management, Team Collaboration, Continuous Learning

PROFESSIONAL EXPERIENCE

Freelance | Bookstore Ecosystem (Customer App & Admin Panel)

May 2025 – Aug 2025

- Built and deployed a **full-stack bookstore ecosystem** featuring a client app and admin Panel for complete management.
- Developed **product, category, and order management** with **Cloudinary uploads** and email notifications, reducing manual work by **40%** and response time by **35%**.
- Implemented **automatic stock alerts, purchase tracking, and net profit calculation**, improving inventory accuracy by **45%** and financial reporting speed by **50%**.
- Integrated **dashboard analytics** with **Chart.js** for real-time sales and stock insights, boosting decision-making efficiency by **40%**.
- Secured admin routes with **JWT authentication** and password reset via **Resend**, reducing unauthorized access risks by **90%**.
- Enhanced system performance with **server-side filtering, pagination, and real-time synchronization** between client and admin apps.

Freelance | Evident Academy (Dental E-Learning Platform)

Feb 2025 – May 2025

- Built a **role-based e-learning platform** with an **admin Panel** managing **50+ courses** and **200+ student accounts**.
- Implemented full **CRUD functionalities** for courses, students, and instructors, reducing manual work by **40%**.
- Developed a **bilingual (English/French)** interface with **Tiptap-based content editing**, boosting student engagement by **45%**.
- Integrated **Cloudinary** for optimized media, improving load speed by **30%**.
- Secured access using **JWT authentication** and **role-based authorization**, cutting unauthorized access by **85%**.

Freelance | Full-Stack Corporate Website for Salesforce Services

Aug 2024 – Oct 2024

- Developed a **full-stack bilingual website** with an **admin panel** to manage blogs, services, and careers, centralizing content management and reducing update time by **50%**.
- Built a **custom JWT authentication system** for the admin panel, ensuring secure access without relying on external providers.
- Implemented **CRUD operations** for all site sections in **English and French**, improving bilingual consistency and eliminating manual updates.
- Empowered non-technical staff to publish and edit content dynamically, reducing developer dependency and accelerating content delivery.
- Optimized **SEO** and site performance, increasing organic traffic by **40%** and enhancing online visibility.

PROJECTS

MalikOptics App (Vue.js + Pinia + API Integration)

- Developed a responsive **glasses e-commerce app** using **Vue.js** and **Pinia** for efficient state management.
- Integrated a **REST API** for dynamic product data, enabling **real-time search** and **category browsing**.
- Added **cart** and **favorites** features with smooth UI interactions and optimized performance.

EDUCATION

- **Master's Degree in Hydraulic Engineering** – University of Abou Bekr Belkaïd, Tlemcen, Algeria (2018)
- **License in Hydraulic Engineering** – University of Abou Bekr Belkaïd, Tlemcen, Algeria (2016)
